

Condensed Matter Faculty Position Johns Hopkins University

The Department of Physics and Astronomy of the Johns Hopkins University expects to fill a faculty position in experimental or theoretical condensed matter physics. Applications are welcome from researchers in all areas, including hard and soft matter and biological physics. This is an open-rank search, and candidates will be considered for appointment both at the assistant professor level and at higher ranks, as appropriate. The successful candidate will be expected to maintain an active research program and to teach at both the undergraduate and graduate levels.

Applicants should submit a curriculum vitae, a list of publications and short description of research plans via apply.interfolio.com/32602. Applicants who wish to be considered at the level of assistant professor should have three letters of recommendation submitted on their behalf to the same address. If you have questions concerning Interfolio, please call (887) 997-8807 or email help@interfolio.com. You may also contact Pam Carmen at (410) 516-7346 or pcarmen1@jhu.edu.

Consideration of applications will begin on January 1, 2016, and will continue until the position is filled. Johns Hopkins University is committed to active recruitment of a diverse faculty and student body. The University is an Affirmative Action/Equal Opportunity Employer of women, minorities, protected veterans, and individuals with disabilities and encourages applications from these and other protected group members. Consistent with the University's goals of achieving excellence in all areas, we will assess the comprehensive qualifications of each applicant. The Department of Physics and Astronomy, in particular, is committed to hiring candidates who, through their research, teaching and/or service, will contribute to the diversity and excellence of the academic community.
