

**Photonics and Optoelectronics Laboratory
Centro Atómico Bariloche &
Instituto Balseiro**

What is bright with light?

4 - 9 December 2016

Scope

The aim of the workshop is to gather colleagues working at the frontiers of photonics, on the control of light, on its interaction with matter, on fundamental ideas and applications, including plasmonics, near-field optics, sensing, optomechanics, CQED, quantum optics, and any advance that might stimulate the progress of these related fields.

Scientific Committee

Dr. Thomas Dekorsy
Dra. Natalia Del Fatti
Dr. Humphrey Maris
Dr. José Menéndez
Dr. Roberto Merlin
Dr. Bernard Perrin
Dr. Paulo Santos
Dr. Oliver Wright

Organizing Committee

Dr. Axel E. Bruchhausen
Dr. Alejandro Fainstein
Dra. María Florencia Pascual Winter
Dra. María Laura Pedano
Dr. Andrés Reynoso
Dr. Guillermo Rozas

Contact Information

Photonics and Optoelectronics Laboratory.
Centro Atómico Bariloche. Av. Bustillo Km. 9.500
S.C. de Bariloche - Río Negro
Phone: +54 (0294) 4445100 ext. 5427
Email: bright2016.bariloche@gmail.com
Web: fisica.cab.cnea.gov.ar/bright2016

Workshop Venue

What is bright with light? will take place near San Carlos de Bariloche, Argentina.
The venue is the Hotel Amancay, located in the Nahuel Huapi National Park in Patagonia.

Av. Bustillo Km. 24.8 - Villa Llao Llao CP R8401ALN
S.C. de Bariloche - Río Negro
Phone: +54 (0294) 4448344

Invited Speakers

**Alberto Amo
Paula Angelomé
Jacqueline Bloch
Andrea Bragas
Andrés Cantarero
Thierry Chanelière
Emiliano Cortés
Natalia Del Fatti
Clément Faugueras
Iván Favero
Alejandro Goñi
Bernard Jusserand
Daniel Lanzillotti-Kimura
Aristide Lemaître*
Ariel Levenson*
Stefan Maier
Roberto Merlin
Marcelo Nollmann
Bernard Perrin
Aliaksandra Rakovich
Sebastián Reparaz
Pascal Ruello
Paulo Santos
Alexey Scherbakov
Darrell Schlom
Pascale Senellart
Galo Soler Illia
Fernando Stefani
Nicolás Tognalli
Fabrice Vallée
Markus Wagner
Oliver Wright***
