

2nd Announcement

Dear Friends and Colleagues,

We are organizing a conference in memory of our dear friend and colleague, Cirano De Dominicis, who passed away in April 2017. This meeting is entitled

Statistical Physics of Disordered and Complex Systems: A Tribute to Cirano De Dominicis

and will be held at the Institut de Physique Théorique, CEA-Saclay, France, on June 4 – 6, 2018.

It will be the "**23rd Rencontres Claude Itzykson**", a series of prestigious conferences organized by

the IPhT, CEA. It will provide a unique opportunity to gather together former collaborators, colleagues

and friends of Cirano De Dominicis, as well as younger researchers, who made significant contributions

in the fields of Statistical Physics, in which Cirano had major impact:

Quantum Many-Body problem, dynamics of out of equilibrium systems, spin glasses and disordered systems.

The list of speakers includes:

Roger Balian, Andrea Crisanti, Bernard Derrida, Philippe Di Francesco, Irene Giardina, Francesco Guerra, Bertrand Halperin, Henk Hilhorst, Imre Kondor, Marc Mézard, Michael Moore, Peter Mottishaw, Giorgio Parisi, Luca Peliti, Peter Young, Annette Zippelius,

It is our pleasure to invite you to this exciting event.

We are looking forward to seeing you at this Conference,

Kindest regards,

The organizing committee

Giulio Biroli

Edouard Brézin

Henri Orland

Laure Sauboy (Secretary)
